RE: Interruption in Supply of Some Baxter IV Administration Sets

Dear Sir/Madam,

Baxter Healthcare Ltd. would like to notify you that we are currently experiencing a disruption in the supply of some IV sets. This is due to a delay in our distribution process from our Tunisia manufacturing plant.

We are aware of the potential impact this supply interruption may have on customers and we are continuing to explore solutions to protect and maintain product supply to the best of our ability, however, we are facing a shortage of a few IV administration sets used by your hospital.

Please find below a list of the administration sets which are affected. Unfortunately at this time Baxter cannot offer alternatives to these codes.

Product code on Back order	Description	Estimated Get Well Date
MMC2071B	Gravity Blood Set	March 2023
MMC2081B	Theatre Blood Set	March 2023
MMC3322L	Theatre Solution Set	January 2023
EMC9675	Paediatric Blood Set	February 2023
EMC9612	Dual Spike Blood Set	January 2023
EMC9603	Baxter Pump Secondary Set	February 2023
EMC4015N	Uromatic Irrigation Set	January 2023
EMC4055N	Easyflow Irrigation Set	January 2023

Baxter is doing everything possible to ensure secure supplies for all medically necessary products for patients. Where possible, we aim to have multiple-sourced supplies for critical items.

Baxter will update this communication if there are any changes to the above.

In the meantime, should you have any questions regarding this issue, please contact your local Baxter Infusion Systems company representative, or Baxter Customer Services on UK: 0800 0289 881; NI: 0800 0280 826; ROI: 01 2065570.

Yours faithfully

Lee Thompson
