Peterborough Business Park
Peterborough PE2 6FX
UK
Tel: +44 (0) 1733 392000
www.coloplast.co.uk
Company No. 01094405

Coloplast's purpose is to make life easier for people with intimate healthcare needs. Innovation is part of our legacy, and we are committed to developing clinically relevant products and services that benefit patients and healthcare systems alike.

Coloplast Wound and Skin Care are replacing Biatain® Soft-Hold with Biatain® Silicone Non-Border. The Biatain® Silicone Non-Border range benefits from the same unique 3DFit Technology you are familiar with and is also available in a wider range of sizes to simplify choice.

Biatain® Silicone Non-Border minimises the risk of leakage and maceration:

- ✓ Absorbs vertically to protect the periwound skin from maceration.
- ✓ Conforms to the wound bed* to reduce gap formation and exudate pooling.
- ✓ Retains exudate under compression to reduce risk of leakage.

Biatain® Silicone Non-Border ordering codes:

Size (cm)	Qty	Code	NHS	PIP
5x7.5	10	39020	ELA1268	418-0931
7.5x7.5	10	39021	ELA1276	418-0899
10x10	10	39022	ELA1277	418-0923
12.5x12.5	10	39023	ELA1269	418-0873
10x20	5	39024	ELA1260	418-0915
15x15	5	39025	ELA1278	418-0881
20x20	5	39026	ELA1279	418-0949

Biatain® Soft-Hold foam dressings 15x15cm (ELA276) and 10x20cm (ELA275) have been discontinued and will only be available while stocks last. To avoid disruption for you and your patients, change to Biatain® Silicone Non-Border with 3DFit Technology where clinically appropriate.

If you need more information or support to make the change, please contact the Coloplast Product Support Specialists on **0330 1755836** or at woundcareuk@coloplast.com.

*Conformability may vary across product design
