Certificate of Destruction

Dear Customer,

Please confirm the details of the products destroyed by completing and signing the attached Certificate of Destruction; then email or fax it back to Abbott Rapid Dx International Limited.

This document will then form part of our quality records for product traceability. If there was a future product recall, manufacturer's Field Safety Notice or vigilance issue with regards to these products then you will not be contacted as our records will show that the products have been destroyed.

Please may we ask that all products are destroyed in a sound environmental manner and according to the laboratory's health and safety procedures.

Best Regards

Your Abbott Rapid Dx customer service team
