Kolmi FFP3 respiratory PPE face masks M53214S-WH-UK, M53014S-WH-UK, M53114S-WH-UK, M53214S-WH-MB, M53014S-WH-MB, M53114S-WH-MB

Notice #: 003

Date: November 14th, 2024

Subject: Instruction on the continued use of Kolmi FFP3 face masks.

We will be introducing Kolmi mask under 3 new references: **M53214S-WH-MB, M53014S-WH-MB, and M53114S-WH-MB**

All three masks **M53214S-WH-MB, M53014S-WH-MB and M53114S-WH-MB** are equivalent from a fit test perspective (same design, same shape, same nose piece and same elasticated head straps) and anybody fit tested to one of these masks **M53214S-WH-UK, M53014S-WH-UK and M53114S-WH-UK** can safely use the masks referenced in this letter.

As a reminder, it is still good practice to do a thorough visual assessment of all PPE immediately before it is used and if there are any concerns about the integrity of the PPE item it should not be used.
