Dear Healthcare Professional

RE: Discontinuation of Administration sets

We are writing to inform you that Fresenius Kabi have taken the decision to discontinue the following products -

- R6R2134 BLOOD COMPONENT TRANSFUSION SET
- R6R2236 PLATE ADMINISTRATION SET
- R6R1401 SAMPLING SITE COUPLER WITH NEEDLE INJECTION SITE

We hope that by informing you of this situation now, you have adequate time to look for alternatives. Stock is scheduled to run out around July, this is based on previous sale predictions. There will not be any stock replenishment during this time.

If you require further information or have any queries, please contact your local Fresenius Kabi representative.

Yours sincerely

Sophie Swift
Product Manager
Fresenius Kabi Limited
