Dear Valued Customer,

RE: BD Vacutainer® Push Button Blood Collection Sets & BD Vacutainer® UltraTouch™ Push Button Blood Collection Sets SKU availability

At BD Specimen Management, we are committed to delivering the highest quality product experience to our customers. We are writing to inform you of important updates regarding specific BD product SKUs to ensure continued excellence in service and supply.

To enhance operational efficiency in our manufacturing facilities and maintain stable product availability, we have made the decision to **extend the pause in production** of selected BD Vacutainer® blood collection set SKUs. This change is currently in effect and will remain until further notice. **Table 1** outlines the status and availability of BD Vacutainer® Push Button and UltraTouch™ Push Button Blood Collection Sets. BD will notify customers as soon as the paused SKUs become available for order or if there are any changes.

We encourage you to work closely with your local BD representative to ensure a smooth transition to the available SKUs and to address any questions or concerns you may have.

We understand the critical role our products play in supporting accurate diagnostic testing and ensuring the safety and confidence of your clinical staff. Thank you for your continued partnership and trust in BD. For more information about these changes, please contact your local BD representative.

Sincerely,

Samia Lograda
BD SM EMEA Snr Marketing Manager

Table 1: SKU Details

**The potential alternative products are BD's suggestions based on its own comparison of the form, features, and functions of the discontinued products and the potential alternative products. Depending on a customer's circumstances, clinical requirements and intended use of the proposed alternative product, such product may not be a clinically appropriate alternative to the discontinued product, and any such determination shall be made by the customer. Please check with your local BD representative to confirm whether the alternative SKU is available in your country.*
