Date: 1st May 2026

Dear Customer,

The purpose of this letter is to provide you with some context to the updated Field Safety Notice ("FSN") we have issued for Namic White Star Handle Manifolds as of 1st May 2026.

Specifically, you may be wondering why it does not appear that all affected procedure packs are covered by our updated FSN. The reason for this is that those procedure pack codes and lot numbers specified are the procedure packs that we can directly cover but for all other procedure packs we require updated FSN's from Medline to their originally issued FSN 26/02 (manifolds). We are liaising with Medline but cannot make any statement on their behalf.

We apologise for any confusion caused but we hope this covering letter explains the context for our FSN.

If you have any questions or need support with finding alternative solutions, please contact your Kimal Sales Representative. Should you not have those contact details then please contact Kimal Customer Services on +44 (0)845 437 9542.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read "M Press".
