Update: Temporary Supply Constraint – 3M™ Ranger™ Blood/Fluid Warming Sets

Dear Valued Customer,

We want to provide an update on the product availability challenges due to manufacturing and shipment delays affecting our Solventum customers and update how we will continue supporting you through this recovery period.

We understand the pressure these delays can create for health systems, supply chain teams and clinicians. We do not take that lightly. Reliable supply is essential to delivering care and restoring reliability remains our highest priority. Most importantly, we want you to know that we understand what's at stake and that teams across Solventum are fully mobilized to improve product availability and fully support our customers through recovery.

Product Code	Product Description	Estimated Recovery Status*
24355	3M™ Ranger™ Blood and Fluid Warming System, High Flow	Limited availability until January 2027
24370	3M™ Ranger™ Blood and Fluid Warming System, High Flow with Patient Line	Limited availability until January 2027
24200	3M™ Ranger™ Blood and Fluid Warming System, Standard Flow	Limited availability until January 2027
24250	3M™ Ranger™ Blood and Fluid Warming System, Standard Flow with extension	Limited availability until January 2027
24450	3M™ Ranger™ Blood and Fluid Warming System, Paediatric	Limited availability until January 2027

We understand the importance of reliable product availability and sincerely regret any disruption this may cause. Our teams are working diligently to improve supply as quickly as possible while continuing to uphold the quality standards you expect from Solventum.

If you have any questions or need support managing orders during this time, please contact your local Solventum Account Manager.

Kind regards,

MedSurg Business

Solventum
