

29th July 2026

Reference: Portex™ UniPerc™ Adjustable Flange Tracheostomy Tubes and Kits – Product Discontinuation

Dear ICU Medical Customer,

The purpose of this communication is to inform you of the planned discontinuation of the Portex UniPerc Adjustable Flange Tracheostomy Tubes, Replacement Inner Cannulas, and Percutaneous Dilation Tracheostomy Kits listed below once current inventory is depleted due to supplier discontinuation of a necessary material, resulting in a supplier shortage.

ICU Medical will continue to accept and fulfill orders for the affected products until existing inventory is exhausted, which is currently estimated to occur in summer 2027. Actual timing may vary based on demand and ordering patterns, and all orders will be fulfilled subject to available supply.

Product Code	Description	UOM	QTY
100/897/070CZ	UniPerc Adjustable Flange Tracheostomy Tube Cuffed, 7 mm	EA	1
100/897/080CZ	UniPerc Adjustable Flange Tracheostomy Tube Cuffed, 8 mm	EA	1

100/890/090CZ	Replacement Inner Cannula for UniPerc Adjustable Flange Tracheostomy Tube, 9 mm	EA	1

We recommend that customers review anticipated demand and plan transitions early to support continuity of care before supply is fully depleted.

If you have any questions regarding this discontinuation, please contact ICU Medical Customer Service at +44 (0)203 357 9400 or your ICU Medical Account Manager.

Thank you for your continued support and business.

Kind Regards,

Courtney Cantu
