A note from the experts: Culinary and Dietetics

Are you crisps in, or crisps out? Regardless of how you like the crisps with your sandwich (this dietitian is crisps in) they can be a great way to bump up the calories in a lunchtime meal offering. Alternatively as a light snack, crisps usually go down quite well.

It is getting much colder and we may find our patients and staff reaching for warming and comforting soups at this time of year. The soup mixes are a great way to create soups in bulk.
