**Hibiscrub<sup>®</sup> 4% w/v Cutaneous Solution Chlorhexidine Gluconate**

Dear valued customer,

As per our previous communications we are experiencing challenges when it comes to the production of the above mentioned product. To be able to address these challenges we decided to pause production for the next eight weeks.

This will give the time needed to handle the ongoing issues at our contract manufacturing site to assure an uninterrupted production of our products moving forward.

**Affected products**
