

# NHS Supply Chain Insulin Pumps, CGM's and Associated Products - Framework Reference Number: 2021/S 000-014257

## Key Features

- This is a direct framework; once a trust has signed up to purchase from a supplier, all ordering, invoicing, deliveries will continue to be managed directly with the supplier.
- This framework captures all the suppliers and technologies available at the point of launch. However, it will not prevent new suppliers and products coming to market from accessing the NHS.
- 3 Lots and 15 suppliers are available at point of launch (summary below).

## Lot and Supplier Structure

Insulin Pumps Tethered, Insulin Pumps, Patch Insulin Pumps and associated products.	Continuous Glucose Monitoring Devices (CGM) and associated consumables.	Software and Diabetes Management Applications, software or algorithms that contribute to the functionality of a closed loop.
Lot 1 Insulin Pumps	Lot 2 CGM	Lot 3 Software and Algorithms
A.Menarini Diagnostics Advanced Therapeutics (UK) Ltd. Air Liquide Healthcare Ltd. Insulet International Ltd. Medtronic Ltd. Medtrum Ltd. ViCentra Ltd. Worldlink Resources Ltd. Ypsomed Ltd.	A.Menarini Diagnostics Abbott Laboratories Ltd. Dexcom International Ltd. Medtronic Ltd. Medtrum Ltd. Worldlink Resources Ltd.	A.Menarini Diagnostics Air Liquide Healthcare Ltd. CamDiab Ltd. Glooko Ltd. Medtronic Ltd. Medtrum Ltd. Roche Diabetes Care Ltd. ViCentra Ltd. Williams Medical Supplies Ltd. Ypsomed Ltd.

## Key Changes

- The sign-up procedure has changed (see flowchart), we will no longer be issuing a Memorandum of Agreement (MOA). Instead, we will issue a Unique Reference Number (URN), which can be flexible to suit the trust requirements in terms of how each trust manage their budgets. For example, some suppliers have banded prices which are reviewed on a 12-monthly basis, so some trusts want a new URN every time they have a change to their price band. Other trusts want the URN to run for the financial or calendar year, or for a specific quantity, specific value or indeed be open ended, (i.e. for the duration of the framework).
- The information contained within the URN form will ask for details around hospitals that belong to the trust and the name of the procurement personnel at the paying trust. The URN form will also contain your pricing information, but we will not require any signatures. The URN form can be requested from the Buyer, Leigh Carr.

- There is a change to the banding structure, moving from four price bands to seven price bands. The banding structure has been changed to reflect the type of product i.e. devices or consumables. The buyer will obtain the applicable band from the supplier for each trust and for trusts moving from the old framework to the new framework; the buyer will work with any suppliers who offer a banded price to provide each trust with the new applicable bands. This will then be sent to the trust to review.
- New Lot added **“Software and Algorithms”** to enable supplies of the most up to date technology to be able to bid on and be awarded to the framework.
- The framework will **reopen on a yearly basis** to allow any new supplier in this field to be able to join the framework and to also allow any suppliers already awarded to the framework to add any new products in lots that they are not currently awarded to. No suppliers will be removed from the framework when reopened.

## Volume Bandings

Lot 1 Insulin Pumps	Lot 1 Insulin Pumps	Lot 2 CGM	Lot 2 CGM	Lot 3 Software and Algorithms
Bands relate to number of Pumps purchased per annum	Bands relate to number of Consumables purchased per annum for Installed Patient Base	Bands relate to number of CGM Devices purchased per annum	Bands relate to number of Consumables purchased per annum for Installed Patient Base	No bandings
Band 1 (1 to 15) Band 2 (16 to 30) Band 3 (31 to 45) Band 4 (46 to 60) Band 5 (61 to 75) Band 6 (76 to 100) Band 7 (101 +)	Band 1 (1 to 25) Band 2 (26 to 50) Band 3 (51 to 100) Band 4 (101 to 150) Band 5 (151 to 200) Band 6 (201 to 250) Band 7 (251 to 300)	Band 1 (1 to 10) Band 2 (11 to 20) Band 3 (21 to 30) Band 4 (31 to 40) Band 5 (41 to 50) Band 6 (51 to 60) Band 7 (61 +)	Band 1 (1 to 10) Band 2 (11 to 20) Band 3 (21 to 30) Band 4 (31 to 40) Band 5 (41 to 50) Band 6 (51 to 60) Band 7 (61 +)	

How to access the framework: For queries on pricing and to set up an agreement contact

### Leigh Carr

Buyer - IV Therapy – Insulin Pumps and CGM (Ward Based Consumables, NHS Supply Chain).
