

We are aware that colours can appear differently for individuals with colour blindness or visual impairments.

In clinical settings ID badges are often worn and in many instances are a high contrast yellow.

Colourways Update

NHS Supply Chain consulted with health care professionals, which included our consultation, workshops, wearer trials and sizing trials, and key stakeholders including NHS trusts, the Department of Health and Social Care (DHSC), NHS England and relevant healthcare professional bodies to jointly develop the colour scheme with clearly identified different roles across the health service.

There are four core colour groups for the NHS Healthcare Uniforms:

 **Nursing and Midwifery**
Blue

 **Pharmacy**
Green

 **Healthcare Science**
Teal

 **Allied Health Professionals**
Ruby and White
