

# Battery Recycling

The NHS Supply Chain Batteries and Torches framework covers a wide range of products from standard alkaline AA and AAA batteries to high power alternatives and rechargeable batteries.

As the main supplier on this framework, AllBatteries UK Ltd work with EcoSurety Ltd to provide containers, arrange collections and transport and recycle through a registered waste carrier company.

## There are a number of collection receptacles available for sites

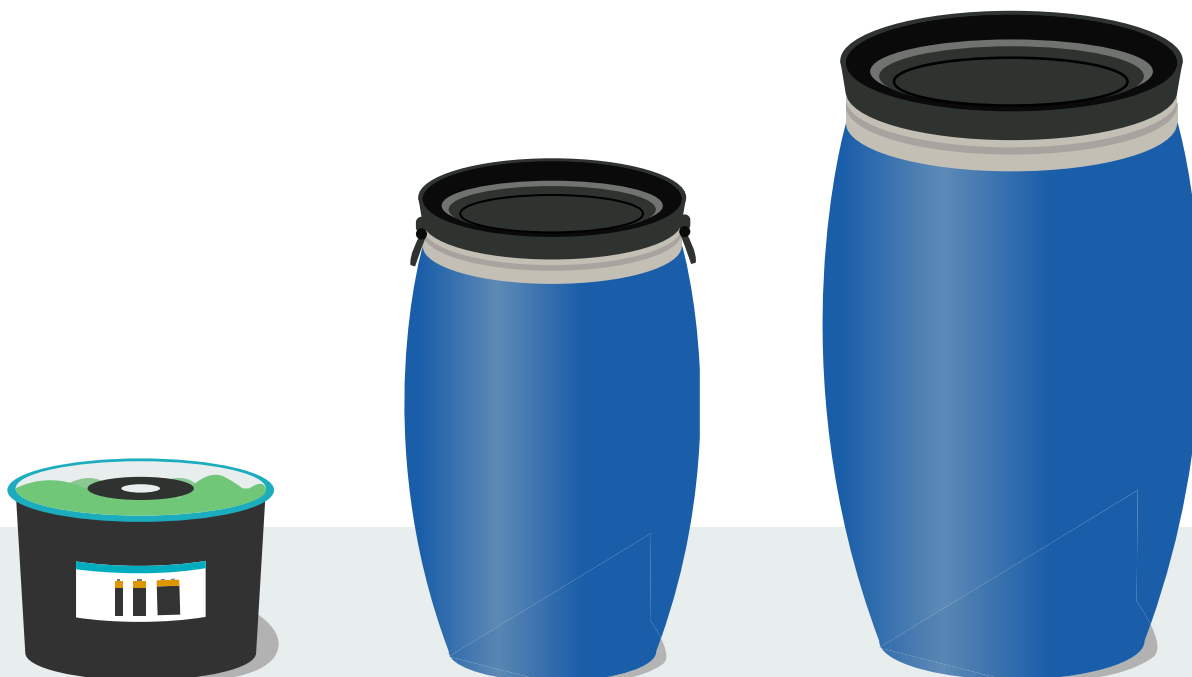

- Small battery bucket packs
- Small barrel (30 litres)
- Medium barrel (120 litres)
- Large barrel (220 litres).

## Recommended storage of waste portable batteries

- Batteries should be placed carefully and not thrown into barrels
- Lead acid batteries should not be mixed with any other type of batteries
- Mixed waste portable batteries can contain up to 5% (by weight) of lithium
- Batteries should be stored in a dry area under cover
- Do not allow water or other liquid into the container
- Keep batteries away from heat sources.

## Setting up battery collections

To start the process of setting up battery collections for your trust, or if you require any further information in relation to the battery collection set up process, please contact Esme Crutchley - Quality Co-Ordinator at Allbatteries on 0121 506 9069 or email: [esme.crutchley@allbatteries.com](mailto:esme.crutchley@allbatteries.com).

## Collection process for a small battery bucket with liner bags

1

Complete online battery collection request form:  
<https://www.ecosurety.com/waste-recycling/>

If you have a small battery bucket with clear liner bags click on 'Arrange a collection of full battery liner bags'. You must have at least four full liner bags to have a free collection.

2

3

Ensure that "AllBatteries customer" is written in the notes section of the online form.

4

The collection is booked in with supplier.

5

If the supplier has any queries regarding the collection, they are fed back by Ecosurety to the requestor and answered.

6

Collection made within 15 days.

7

Replacement liner bags can be ordered free of charge for separate delivery through the online form: <https://www.ecosurety.com/waste-recycling/> → 'Order a battery collection pack' → select 'yes' for bucket liners

## Collection process for a large battery barrel or container

1

Complete online battery collection request form:  
<https://www.ecosurety.com/waste-recycling/>

Click on 'Request a batteries collection' and then if you have a large barrel/container click 'Exchange full battery containers for empty ones'

2

3

Ensure that "AllBatteries customer" and "barrel exchange" is written in the notes section of the online form

4

The collection is booked in with supplier

5

If the supplier has any queries regarding the collection, they are fed back by Ecosurety to the requestor and answered

6

Collection made within 15 days

7

Replacement barrel provided upon collection
