

eDC Android Release Notes

20 April 2023

Software Version 2.6.7

What's New?

In response to customer feedback, we regularly work on various bug fixes and performance improvements for our eDC android devices. Below are the latest updates being released.

General

- The Catalogue Search now warns the user if the results are above the upper limit of the amount that can be shown on the screen (EDC-636).
- EAN has been replaced with GTIN in the Catalogue Search results (EDC-945).

eDC

- The # (index) number column's sort order can now be changed (EDC-72).
- Duplicate demand lines caused the Send MMD process to fail, now one of the duplicated demand lines will be automatically removed and the data will be sent (EDC-915).

eDC Gold

- Pending Transactions:
 - If the Department has been changed in an Issue transaction, this is now correctly reflected in the transaction (EDC-89).
 - Corrected the title of the Transfer transaction which was showing as Write Back (EDC-903).
 - The client list is now properly filtered when a Department is selected in Issue transactions (EDC-931).
 - Selecting Done with no changes will no longer overwrite the selected Department (EDC-932).
 - Within Pending Transactions, when changing the Department in an issue transaction, the Client now correctly resets to N/A (EDC-941).
- The Stock View screen has been re-organised to be more user-friendly (EDC-492).

Should you have any further questions, please contact the NHS Supply Chain Helpdesk via email at cshelpdesk@supplychain.nhs.uk or telephone 08000 868 670.
