

eDC Android Release Notes

28 April 2022

Software Version 2.6.0

What's New?

In response to customer feedback, we regularly work on various bug fixes and performance improvements for our eDC android devices. Below are the latest updates being released.

Communications

- Stock Catalogue - more than one stock catalogue download can no longer be processed at the same time on any one device (EDC-537)

eDC

- Stock Check Mode - no longer changes the background colour on the device when adding an item from the catalogue (EDC-61)
- Local Catalogue - no longer missing product descriptions (EDC-538)
- Requisition Data - further improvements have been made to prevent duplicate NPCs appearing within requisition data lists (EDC-560)
- Scaling Factor - will now appear on the amend screen where applicable (EDC-567)

eDC Gold

- Stock Check - when confirming a quantity, the screen now returns to the product batch list and not the product list (EDC-580)
- Deleting a Store - now refreshes the list of stores and removes the deleted store from the stores list (EDC-43)
- Put Away All - the confirmation message now displays the correct message when in the products batch list (EDC-63)
- Receipting - now displays the correct message when there is nothing to delete (EDC-67)
- Pending Transaction - changing a transaction now time stamps the transaction in the correct time format (EDC-88)
- Quantity Fields - no longer able to scan barcodes into quantity fields (EDC-532)
- Preferences - changing preference no longer causes the wrong store to be selected (EDC-507)
- Barcodes
 - EAN13, EAN8, and ITF14 barcodes which start with 10 or 21 no longer leaving data behind if scanned into the batch or serial number fields (EDC-362)
 - No longer being trimmed to 24 characters if scanned into the Batch or Serial number fields (EDC-471)
 - Unconfirmed barcode data now auto-selects to enable it to be quickly overwritten, where an expired error message appears (EDC-575)
 - Removed unnecessary "Enter Batch/Serial/Expiry Data" messages when other data is needing to be scanned (EDC-562)

eDC Gold (Continued)

- New Reason Codes (EDC-572)
 - Write Back - Loaned Returned
 - Write Off - Loaned Out
- GTINs and Unit of Issue fields will now populate (EDC-535)
- Screen Refresh - resolved issue when using the back button when the receipt shelf-life warning message is shown (EDC-518)
- Done Button - increased the touch space and changed colour (EDC-581)
- Notifications - a new audio sound occurs when an error message appears on the screen (EDC-563)
