

eDC Android Release Notes

7 September 2023

Software Version 2.6.10

What's New?

In response to customer feedback, we regularly work on various bug fixes and performance improvements for our eDC android devices. Below are the latest updates being released.

General

- Local Catalogue - The superfluous quantity value in the NPC and MPC pages has been removed (EDC-872).

eDC Gold

- The Send Store process no longer gets stuck if the Store has no Associated Barcodes (EDC-105).
- Fixed the scanning of a non-associated GTIN not finding products in the Sales Order Number list or NPC list in Planned Receipts, when the GTIN is in the catalogue against the product (EDC-1031/1032).
- Added Issue UOM field and renamed UOI to Receipt UOM in the Stock Check - Add New Stock Item screen (EDC-1033).
- In the Stock View screen, we have removed the -/+ buttons (EDC-1046).
- Removed the ability to enter more than one for serial tracked items in all screens (EDC-1059).

If you have any questions about these updates, please contact the NHS Supply Chain Helpdesk via email at cshelpdesk@supplychain.nhs.uk or telephone 0800 086 8670.
