eDC Android Release Notes

8 March 2023

Software Version 2.6.6

What's New?

In response to customer feedback, we regularly work on various bug fixes and performance improvements for our eDC android devices. Below are the latest updates being released.

General
- Improvements to the performance within the Login/Comms screen (EDC-865)

eDC
- The app no longer crashes when there are more than 1000 lines captured in the demand. When using amend screen, the next and previous item option is now limited to the 400 lines in the demand list. If the limit is reached, leaving, and re-entering the amend screen will allow the user to continue. (EDC-863/INC24943846)
- The Group Key is now shown in the amend product screen (EDC-77)
- The Enter Qty/Stk check checkbox no longer incorrectly changes when adding product using the Catalogue Browse function (EDC-859)
- When navigating through the products the Fixed data fields the Group, ROQ, BFQ and price are no longer removed (EDC-856)

eDC Gold
- Mark as complete will now be persistent through the receipting session for each product/order (EDC-858)
- Process Receipt and Delete Receipting Data options can no longer be selected where there has been no data captured (EDC-897)
- Cancel Order Line menu now only appears in the Planned Receipt Order Line (product) screen (EDC-899)No longer adds more than 1 for a Serial tracked item (EDC-87)
- Return to Stock now shows the correct Client Name (EDC-839)
- The Complete All and Delete Stock Check Data options will no longer be selectable if there has been no data captured (EDC-898)
- No longer allows zero to be entered into the quantity for serial tracked items (EDC-872)
- Fixed constant busy spinner appearing when Complete an Individual Product Put Away All option, and then using the Back Button to clear the confirmation message (EDC-857)
- Improvements made to prevent Send Stores being received with the wrong Site ID which caused uploads to fail (EDC-843/862/INC24735672)
- Planned Sale Order and Purchase Order list now correctly refreshes when changing between the options (EDC-902)
