

# eDC Android Release Notes

8 November 2022

Software Version 2.6.4

# What's New?

In response to customer feedback, we regularly work on various bug fixes and performance improvements for our eDC android devices. Below are the latest updates being released.

## General

- The error message of 'Not an eDC Gold User' no longer appears when there may have been a network connectivity issue (EDC-760)
- The 'No stores' message within the comms log when loading MMDs will no longer be displayed (EDC-761)

## Catalogue

- Browsing the Local Catalogue for NPC, Supplier Reference, and Supplier Name filters are now displaying correctly (EDC-778)
- MPC filter within Browse Local Catalogue always showing only one product now shows the product selected (EDC-779)
- You can now select products within any of the Browse Trees, except for MPCs (EDC-780)
- We have corrected various spelling errors within the Browse Local Catalogue function (EDC-802)

## eDC

- Within Requirement View when Auto Advance is enabled with a Manual Requirement, the correct field now remains when moving to the next product (EDC-64)
- When changing the sort order in the Req Data screen (View Data mode) the wrong product will no longer be selected to amend (EDC-773)

## eDC Gold

- Receipting now allows for serial numbers that have previously been in stock to be receipted again - this will display a warning message asking the user to confirm this receipt (EDC-637)
- There will no longer be a Shelf-Life alert if receipting a product defined using the Store's default Short Shelf Life days, with the product having an expiry date of more than 30 days life (EDC823/INC24899861)
- Within Return to Stock the Client now shows the Client Name rather than the Client Full name (EDC-657)
- Within Stock Check when deleting a quantity that has been added via the Add New Item function will no longer display a ghost value against the product (EDC-76)
- When selecting Put Away All option on all and individual products now refreshes the screen correctly (EDC-765/767)
- When selecting Complete All within Stock Check now refreshes the screen correctly (EDC-717)
- The Busy Spinner will now display when doing Put Away All on all and individual products (EDC-766/768)
- When Put Away All is used, there is no longer an issue for multipack products where Receipt UOM = Issue UOM (EDC-789/790)

Should you have any further questions, please contact the NHS Supply Chain Helpdesk via email at [cshelpdesk@supplychain.nhs.uk](mailto:cshelpdesk@supplychain.nhs.uk) or telephone 08456 804 357.
