29 March 2022

eDC Web Application Version 1.18

What's New?

In response to customer feedback, we have worked on various bug fixes and performance improvements for our eDC web application. Below are the latest updates being released.

eDC Gold

- Single or double quote marks can no longer be entered into Batch and Serial number fields (EDC-401)
- Special characters (other than alphanumeric) can now be entered into the Receipt search field (EDC-384)
- All Batch and Serial numbers will be in uppercase for compatibility with the Android device (EDC-466)
- Where a local product has no secondary description the issue screen will no longer display 'no results' messages (EDC-529)
- Where a local product has no secondary description the Transaction Log screen will no longer display 'server error' messages (EDC-529)
- The Transaction Log screen will filter correctly where there is a space in the NPC (EDC-529)

Reports

- Dates can now be entered beyond the 12th of any month for Chromium-based browsers (EDC-388)
- Formatting improvements, including forcing text formatting preventing Excel incorrectly formatting as number format and removing superfluous database ID columns to the following reports:
 - Authorisation (inc. Summary) (EDC-434/443), Requisition (EDC-442), Local Catalogue (EDC-444), Inventory Status (EDC-446), Requirement (EDC-457) and Stock Analysis (inc. Summary) (EDC-520/521)
 - Gold only: Stock Status (EDC-522), Transaction (EDC-524), Short Shelf Life (EDC-524) and Stock Definition Export (EDC-533)
- The eDC Requisition Report now includes three new columns for e-Direct order information (EDC-504)
 - eDirect Product Flag (Y/N)
 - eDirect expected delivery date in DD/MM/YYYY format
 - eDirect Purchase Order Number
