

eDC Web Application Release Notes

3 September 2024

Web Application Version 1.28

What's New?

In response to customer feedback, we regularly work on various bug fixes and performance improvements for our eDC web application. Below are the latest updates being released.

eDC

- A warning will now appear when using the web browser back button when there are unsaved changes in the Catalogue screen (EDC-397).
- The local catalogue will no longer allow quote marks (single or double) to be used for product codes. This is to prevent issues downloading the catalogue on the Android device (EDC-600).
- New or edited internal suppliers are now automatically selected when exiting the New/Edit Supplier dialogue (EDC-1161).
- Fixed an issue with the Requirement Bulk upload tool not uploading (INC32423578/EDC-1294).

eDC Gold

- Remove the superfluous Patient ID field from the Client setup screen (EDC-1235).

Should you have any further questions, please contact the NHS Supply Chain Helpdesk via email at cshelpdesk@supplychain.nhs.uk or telephone **0800 086 8670**.
